OFFER SUMMARY

2020, Bitero Ltd

THE FUTURE OF INVESTING

Bitero is a company built with the mission to make investing a more simple endeavour for everyone. Democratization is a noun that represents this new century in a very strong sense. With technology becoming more accessible to more people, the solutions they bring are expanding into new markets as well. We utilize this new ubiquity of technology to bring cutting edge investing solutions and planning right to your screen.

The Bitero investment package combines revenue streams from four different investment markets and creates a diversified portfolio that delivers consistent profits throughout its activity.

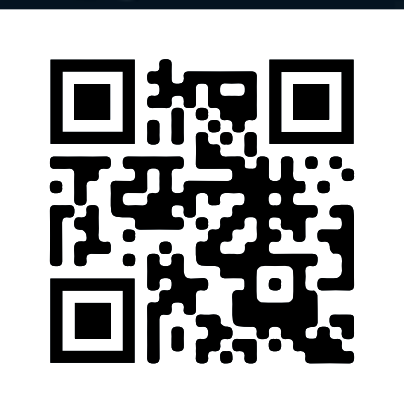

We guarantee users a daily profit of 2% on workdays and 1% on weekends over an investment period of 30 days. After this period, the principal is automatically credited back to your Bitero account.

Your investment can be fully or partly returned to your account balance at any moment. If you choose to release your deposit before the 30 day investment period, a 10% fee will be deducted from the returned amount for processing the payment.
